

Corti-Derm™

Hydrocortisone with Burrow's Solution

Similar to the long discontinued “HB101” by Maurry Biological Company. The Burrow’s Solution base is an astringent and cooling agent for relief of discomfort. The hydrocortisone provides anti-inflammatory and anti-pruritic action.

For the treatment of inflammatory and pruritic skin disorders, such as allergic contact or acute moist dermatitis. Reduces itching and further trauma from habitual scratching and biting.
