A topical spray utilizing Benzalkonium Chloride as a quaternary detergent antiseptic. Allantoin is “used topically as a vulnerary to stimulate tissue repair in suppurating wounds...”¹

For use on cattle, sheep, goats, horses, dogs, and cats to aid in the control of Summer Itch, Ringworm, and other fungal problems.

| Size | Reorder No. | Lbs/Case | Case Pack |
|------------------|-------------|----------|-----------|
| 16 oz. w/sprayer | TP080 | 15 lbs. | 12 x 1 |

INDICATIONS: For use on cattle, sheep, goats, horses, dogs and cats as an aid in the control of summer itch, girth itch, ringworm and other fungal problems.

DIRECTIONS FOR USE: Soak affected area liberally with TOPICAL FUNGICIDE solution. Apply daily until hair begins to grow. Leave treated areas uncovered. Rinse treated areas with clear water before reapplying. Results should be apparent in a matter of days. If no improvement is noted within seven days, consult your veterinarian.

CAUTION: In case of contact with eyes or mucous membranes, flush immediately with water. Obtain medical attention for eye inflammation.
